SKILLS

Javascript	React
Python	Ruby on Rails
Ruby	Jest
SQL	RSpec
Active Directory	Version Control
HTML	Git/Github
CSS	Databases

EDUCATION

Electrical/Electronics Engineer Diploma

Hutchinson Technical H.S.

2013-2017

Studied the sciences of electricity and how applies to electronics/digital electronics.

IT Automation with Python Certificate

Google Career Certificates

2022

Created apps and scripts using the Python programming language to build efficient applications designed for automation

MY VALUE

Communication, it is important because it helps people understand each other, share ideas and information, and build relationships. Effective communication can also promote teamwork and cooperation, prevent misunderstandings and conflicts, and foster trust and respect. In personal and professional contexts, communication is essential for success and fulfillment.

PROFILE

Full Stack Developer with a strong foundation in front-end and back-end development. Proficient in HTML, CSS, JavaScript, and a variety of programming languages, with experience in building responsive and dynamic web applications. Possesses excellent problem-solving skills and a keen attention to detail, with a commitment to maintaining clear and concise documentation throughout the development process. An enthusiastic learner, with a passion for applying newfound knowledge into the portfolio.

EXPERIENCE

Page

Buffalo Erie County Public Library   2015-2017

Provided technical support to patrons with commonly used computer programs, including Microsoft Office Suite.
Maintained order and organization of all items and equipment to ensure a streamlined and efficient workflow.

Information Technology Professional

Marine Corps Air Station Miramar   2017-2022

Configured and set up multiple networks, ensuring reliable connectivity and network security. Provided technical support to over 500 military personnel in MCAS Miramar, maintaining computer hardware, software, and network systems. Ensured mission-critical communications were operational during multiple training exercises. Managed user accounts, passwords, and permissions across multiple systems, including classified networks. Received an award for re-establishing networks that have been deadlined for years.

Full Stack Developer

Learn Academy   2023-PRESENT

Completed a rigorous three-month coding bootcamp program followed by a one-month remote internship placement to apply skills to real-world projects. Gained expertise in front-end web development technologies such as HTML, CSS, JavaScript, React, and Redux, as well as back-end technologies including Ruby, Ruby on Rails.
Successfully built full-stack web applications from the ground up, utilizing RESTful APIs, version control with Git, and deployment with Heroku. Collaborated with other developers and designers to work on team projects, honing skills in communication, teamwork, and project management. Developed a strong understanding of software engineering principles, data structures, and algorithms, and demonstrated proficiency in problem-solving and debugging. Continuously learned and adapted to new technologies and frameworks, staying up-to-date with the latest trends in the industry.
